***Allowable Subject Matter***

The following is a statement of reasons for the indication of allowable subject matter: As to claim 1, note was made of the combination of the "adjustably affixed" (line 5) and "*angle ... can be adjusted*" (italics added, lines 7-8) limitations with remaining claim limitations. As to claim 17, note was made of the combination of "adjustably affixing" (line 4) and "*angle ... can be adjusted*" (italics added, lines 6-7) limitations with remaining claim limitations. Application of adjusting of an angle is fundamentally different than the prior art's "small tolerances and rigorous manufacturing methods" (p. 2, lines 16-17, written specification) and "advanced signal processing" (p. 2, line 18, written specification).
